Engineer Gold Appoints Mr. Spiros Kletas as President, CEO and Director

March 5, 2026

Vancouver, BC, Canada – Engineer Gold Mines Ltd. (the "Company") (TSX-V: EAU) is pleased to announce the appointment Mr. Spiros Kletas as President and CEO of the Company. Mr. Kletas will also join the Board of Directors.

Mr. Kletas is currently a partner at Tavros Capital Partners Corp, a boutique, sector agnostic, venture capital and advisory firm. He has been involved in the capital markets for 20 years in a variety of roles from CEO of a public company, advisor, corporate development, investor relations and head of marketing and finance. During his career, Mr. Kletas has helped companies across different sectors raise growth capital in excess of \$200 million. Mr. Kletas brings a strong background of marketing and financing experience to Engineer Gold Mines, as well as management experience. Mr. Kletas is a graduate of the University of BC.

About Engineer Gold Mines Ltd.

The Engineer Gold Project encompasses an area of 18,319 hectares and is currently subdivided into three areas: the Engineer Gold Mine, Tag Property and Wann River.

Recent exploration has identified a small, high-grade historical gold mineral resource at the historical underground Engineer Mine (see Company website for NI-43101 [report](#)), a small gold-silver historical mineral resource on the Tag Property, numerous high-grade vein and shear-hosted bulk-tonnage gold exploration targets and a small, high-grade gold production opportunity. Both the resources are epithermal-style systems with additional epithermal targets evident on the Project, including the Happy Sullivan. Wann River constitutes an orogenic gold target associated with the prolific Llewellyn fault, and has returned significant gold silver results including a grab sample yielding 263 g/t gold and 1350 g/t silver in 2010 from the Lum showing, one of the many local BC Minfile showings.
